

INSTRUCTIONS

IMPORT SMART LIBRARY FOR 3Shape

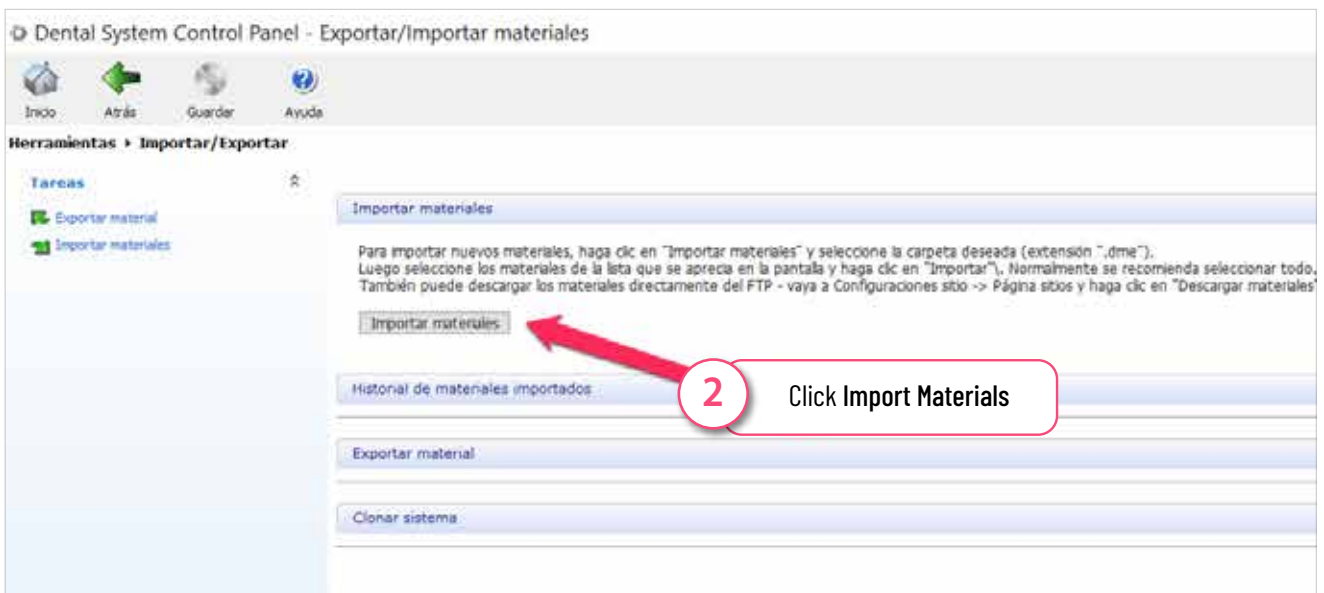

1. Open Control Panel

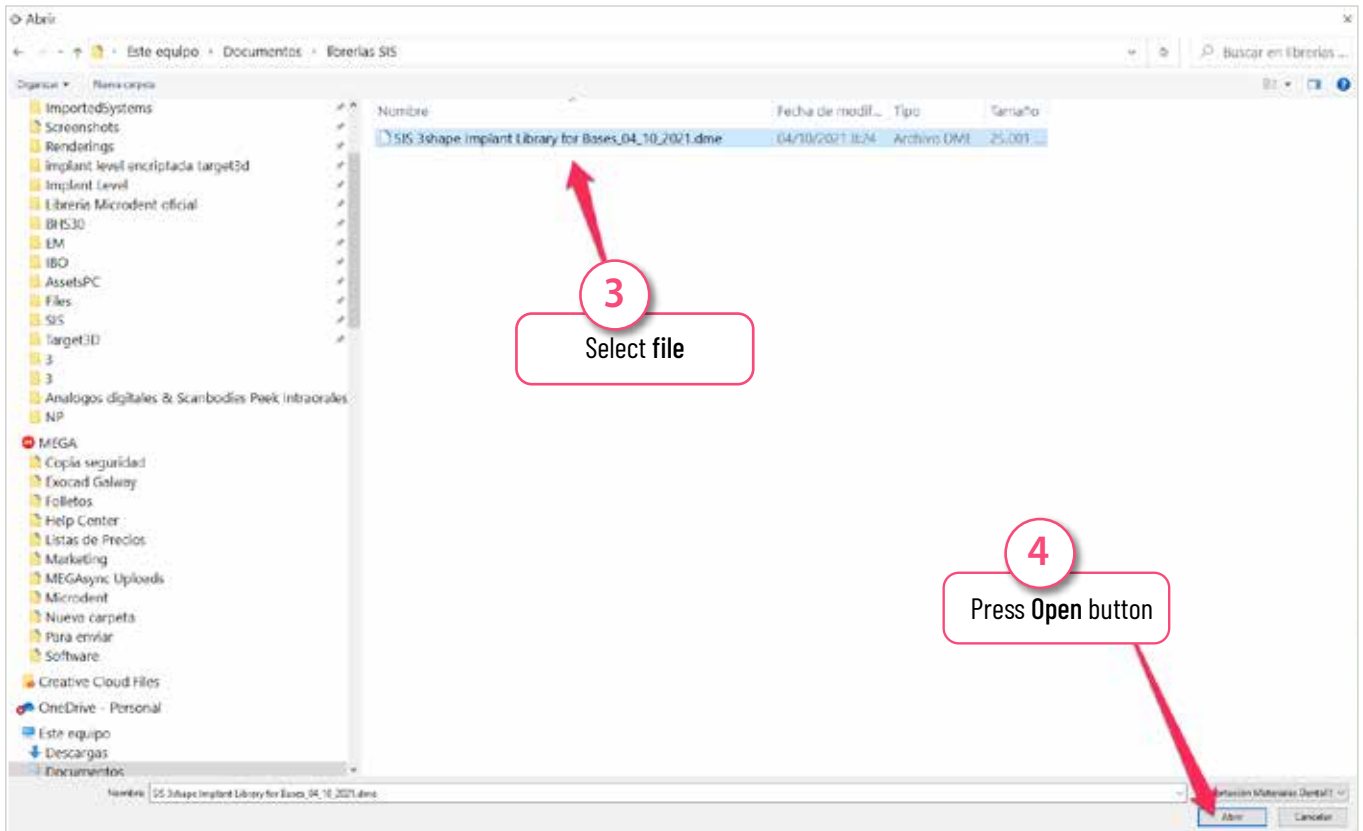

2. You will see the following window.

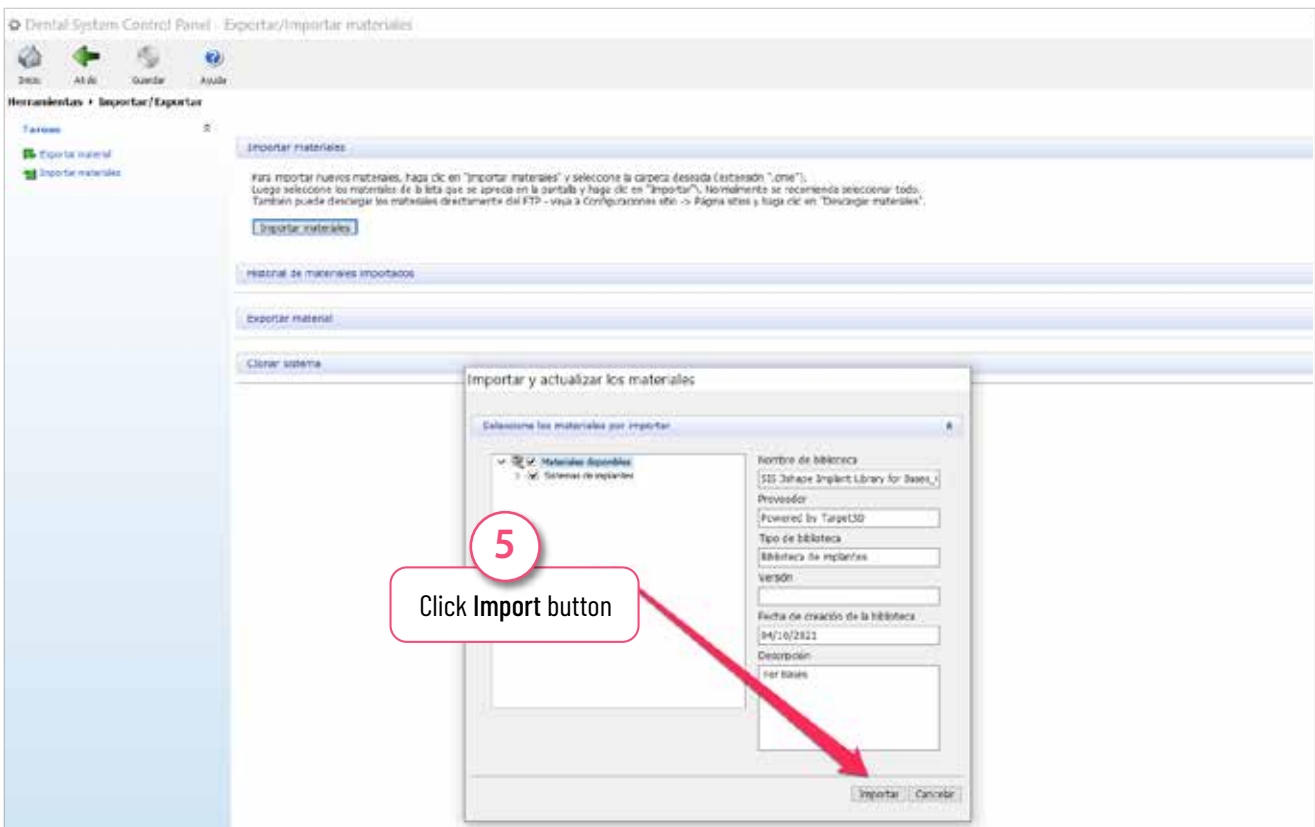

3. The following window is opened.

4. A new window is opened. In this window find the path where you have the downloaded file and select it.

5. A popup window is opened

6. The libraries are installed and ready to use.

IMPORTANT:

Finally you must close the software (Restart 3Shape software) for the changes to take effect.
